

Tax Cut Is Effected In Iowa

Norman Baker
(HIMSELF)
"Hello, Folks!"

HURRAH — A BRAVE MAN — is Governor W. H. Murray of Oklahoma — just too bad for Dr. Leroy Long, dean of the medical school of the University of Oklahoma — here is what it is all about — the allopaths or organized M. D.'s have fought all drugless healers for years and years—they tried, and succeeded, in many states in passing laws so that drugless boys cannot practice—then in states where they can practice, they—the M. D.'s made it so hot that no drugless healer could practice or take patients or treat in any of the city hospitals where they worked — so down in Oklahoma, a poor patient was suffering—could not get relief from the regular M. D.'s who were organized—and the patient called a drugless healer—a Chiropractor—the patient wanted the Chiro to treat him at the medical school — Dr. Long the BIG GUN called a DEAN—one of the hangers-on to organized medicine—wouldn't permit it—the governor stepped in and said—GO—the Chiro went, treated the patient and now Dr. Long is RESIGNS—what a blessing—if about 1000 more doctors would resign people would be better off.

Too much money has been made of the drugless healers because the profession of drugless healing was created because people could not get well through using the allopaths, who were organized for COMMERCIALIZING ON HUMAN SOULS—business is getting so rotten for them in America that they see to their only salvation the making of laws to make YOU AND ME go to them for examination, or an injection of poison phos for vaccination, etc. Times are changing —hurrah again for you, Governor Murray—YOUR IT.

FARMERS NEAR BURLINGTON — all of you come to the big meeting at Burlington, Grove, 8 p. m. Wednesday night, August 18th — hear Jake the fighting Dutchman—I also will be there to shake hands with my good friends and will try my best to outline the ONE REAL FARM SOLUTION — its a winner and no one yet, not even the critics have broken down my plan with argument—lets get together and demand some action among farmers to put them out of the rut — WE CAN DO IT, if you only help. Come also to Mount Pleasant Thursday at 2 p. m. Saunders Grove—big gang will be there — hot time for all—even if the sun does not shine—no matter what meeting you miss—DON'T MISS WELLMAN, IOWA ON SATURDAY NIGHT 8 P. M.

NORTH ENGLISH — editor sure does not like me—we had a rousing meeting there — more enthusiasm perhaps than he ever saw — he could not understand it all — as to why people of his community would become so interested as to sit in hard sprinckle and listen — it is because—THEY ARE TIRED OF BEING FED UP ON JUNK AND BUNK from a newspaper editor that is afraid to discuss both sides of a question in his paper—one-sidedness never gets anyone ANYWHERE — thanks to you N. English folks for your many subs — maybe that's what made him mad — the people will learn the truth, but they never will in the columns of the North English paper—millions would die of Aluminum poisons, millions of cattle be taken by unfair tests—millions die of cancer—and NOT A WORD OF ENLIGHTENMENT FROM SUCH EDITORS — that's why some small papers get smaller and smaller — never larger—the N. E. people are just too smart for him—one thing is sure—you folks watch — he may not have liked the principles I layed down, but I'll bet he does not criticize them or offer anything better.

WEATHER HALTS AIRPLANE TRIP OF LINDBERGH

Aviators Await Clear Skies to Continue Tokyo Flight

By JAMES R. YOUNG

TOKYO (INS) — The Lindberghs were still waiting at Petropavlovsk, Kamchatka, today for the storm over the Kurile islands to clear so they could take off for Nemuro, Japan.

Nemuro and the thin line of islands leading north to Kamchatka were shrouded in a mist that gave no sign of lifting.

Meanwhile Nemuro remained in a state of feverish excitement in anticipation of the flying American colonel and his wife. The little city on the island of Hokkaido was crowded with photographers, newspapermen and visitors from surrounding villages anxious to be among the first to welcome the famous couple to Japan.

A group of volunteers was on Etorofu island waiting to announce with rockets the approach of the fliers. Then Nemuro's inhabitants, headed by the mayor, were to assemble on the beach with representatives of the government and the United States embassy in Tokyo.

The swift black plane of the visitors was to land in the bay where it was to be met by Japanese police launches and escorted to the shore. The welcoming committee will wait for them under an arch and Nemuro school children were to sing the American national anthem.

Later the American fliers will witness a dance by Nemuro girls and attend a banquet given by the mayor.

Tokyo Plans Welcome — When they arrive at Tokyo the visitors will receive a welcome according to the plan announced by the government.

CHARGE BLONDE WITH SHOOTING

Pretty Girl Blamed for Wounding of State Senator

NEW YORK (INS) — Ruth Jayne Cranmer, appearing chic and composed was arraigned in court today charged with suspicion of shooting state Senator Roy T. Yates of New Jersey.

The pretty young blonde, dressed in a brown suit and hat, was self possessed as she faced the bar of justice. The state asked that the case be continued for a week but Miss Cranmer's attorney objected and a forty-eight hour postponement was finally agreed upon. This delay was granted the state to allow time for them to learn the true condition of Senator Yates.

The prosecutor declared that Senator Yates condition was such that he might die and that so far it has been impossible to question him concerning the shooting.

The Senator was shot and wounded in the apartment which he maintained for a week but Miss Cranmer's attorney objected and a forty-eight hour postponement was finally agreed upon. This delay was granted the state to allow time for them to learn the true condition of Senator Yates.

Earlier in the day Miss Cranmer had been subjected to the ordeal of the "lineup." She faced the gaze of Detectives over the strong flood lights as Chief Inspector John J. Sullivan questioned her.

Texas Guinan's Inn Scene of Bombing

NEW YORK (INS) — Woodman-sten Inn, where Texas Guinan entertains the entertainment, was bombed at dawn today.

The "pinceline" believed to have been hurled by gangsters, exploded as it struck a window sill and shattered almost every window pane on that side of the structure.

The roadhouse had been closed since 3 a. m. curfew hour.

The WEATHER man says

MUSCATINE: SUNRISE, 4:10; SUNSET, 7:41. Fair to unsettled tonight and Wednesday. No much change in temperature.

ILLINOIS, MISSOURI: Mostly unsettled tonight and Wednesday. Much change in temperature.

WISCONSIN: Considerable cloudiness Tuesday and Wednesday; some likelihood of a few local showers in central and western portions; little change in temperature.

GENERAL FORECAST: The weather will be fair or less unsettled tonight and Wednesday in the north-central and northern portions of the United States; in the southern portion Great Lakes region and the extreme upper Mississippi valley; and doubtless there will be some local showers or thunderstorms over the southern portion of the country. Most part, readings will be rather high.

Issues Warning

The above picture shows Clinton N. Howard, chairman of the national committee for law enforcement who warns drys that southern states will support wet Protestant Democrat for president.

MUSSOLINI ROW WITH CHURCHES FINALLY CLOSES

Details of the Accord Not Made Public by Vatican

ROME (INS) — The dispute between the Fascist government and the Vatican over the suppression of the Catholic youth clubs has been definitely settled, International News Service learned from a high Vatican source today.

Details of the accord were not made known, but it was understood that the agreement would be made public within a few days. It was stated, however, that the quarrel had been ended to the entire satisfaction of the church.

Definite information on the agreement confirmed the exclusive announcement that an accord was pending made a week ago by International News Service.

The Catholic youth clubs were suppressed about three months ago by Premier Mussolini, who charged that they were being used as a cloak for interference with internal Italian politics. He alleged that they harbored politicians hostile to the Fascist regime.

Mussolini's charges angered Fascist extremists who raised numerous clubs and attacked several other Catholic organizations. The Pope demanded reparations for damages and denied that the clubs were anything but religious in their nature.

Several notes were exchanged between the Quirinal and the Vatican and the quarrel apparently reached an impasse when Mussolini declared that he definitely intended to keep the education of Italian children under the direction of the state.

But the Pope refused to acquiesce and issued a long encyclical denouncing the Fascist idea of the state, declaring that it represented a reversion to paganism. The encyclical reviewed the whole quarrel and by inference made a bitter attack on Mussolini, something no other Italian had dared do since the famous Fascist march on Rome.

ACTRESS TRIES TO POISON SELF

Sweetheart of Former Gotham Gambler in Suicide Attempt

LOS ANGELES, Cal. (INS) — Inez Norton, blonde showgirl and reputed sweetheart of the late Arnold Rothstein, New York gambler, was in an emergency hospital here today suffering from the effects of poison taken in a mysterious suicide attempt, according to police records.

Miss Norton rode to the hospital in an expensive automobile, parked it outside the hospital and registered as Inez Mitchell of Hollywood.

In the automobile police found ownership papers which identified her as Inez Norton.

The police surgeon reported that she had taken only a mild poison and would easily recover.

Miss Norton listed her occupation as an actress and said that she was 28 years old.

No motive for the attempt could be discovered.

Britain Maps Plans to Get Out of Its Present Crisis

By OTTO D. TOLLSCHUS

LONDON (INS) — With Britain facing what has been termed the gravest economic crisis in its history, statesmen and financiers of every school of thought and shade of political opinion are united in one great determination—salvation at any cost.

Party lines have been broken and co-operation is the watchword. No one in authority is attempting to minimize the gravity of the situation. All are convinced, however, that Britain, in time-honored fashion, will "muddle through" this crisis as she has so many others in the past.

CHICAGO BANK FAILURE FACES INVESTIGATION

Charge Owners Took \$2,000,000 Fund From Accounts

CHICAGO (INS) — State's Attorney John A. Swanson today ordered a search for evidence of any criminal violations with a view to prosecution of John Bain and his sons, John H. and Robert A., who are charged with borrowing \$2,000,000 from their chain of twelve neighborhood banks, now defunct.

The state's attorney ordered an assistant, Henry Ayers, to communicate with Irwin T. Gilruth, receiver for the bank chain, who charged the Bains and three of their affiliated companies with running up the huge debt.

If any criminal liability evidence is found it will be presented to the grand jury for indictment, Swanson said. He said he had received no complaints concerning criminal liability in the Bain banks closing.

At the same time, a check on the resources of the principal interests involved in the closing of the banks reveals there is little hope of realization of cash from these sources for reimbursing depositors, according to the receiver.

Sum Borrowed On Notes

The withdrawals, according to Gilruth's statement, had been borrowed on notes secured by collateral of no present value. The statement asserted \$300,000 was borrowed by the Bain interests within 60 days prior to the closing of the banks June 9.

The banks' assets comprise chiefly properties valued by the banks at \$6,000,000, but it is believed, however, said an appraiser has set the value of the properties at \$2,500,000.

DEMPSEY READY TO APPEAR IN DIVORCE ARENA

Laces on His Gloves For Encounter in Reno Courts

By CAROL CROSS

RENO, Nev. (INS) — Interest in Reno today was divided between the looming legal battle in which Jack Dempsey and his screen star wife Estelle Taylor, are scheduled to appear as principals, and the new high record for "marital washings" which appeared to be in the making.

Fifty-eight romances were set for "laundering" today, with 92 "washings" and "dried" Monday. The total will establish a new weekly record for the number of divorces granted since the Nevada six-weeks divorce law went into effect.

Lacing on his gloves for the legal encounter, Dempsey had struck the first blow in his fight by filing suit here against Miss Taylor, alleging mental cruelty as the grounds for his action.

Despite reports from Hollywood that Miss Taylor had declared she would fight his action, the former heavyweight champion indicated (Continued on Page Seven)

5 BANDITS GET \$5,000 IN LOOT

CHICAGO (INS) — After rambling in bewildered fashion about the corridors of a south side office building, a gang of five bandits today found their objective and obtained \$4,000 in a holdup of a branch office of the Metropolitan Life Insurance company.

The robbers first entered the office of a Vacuum Cleaner company by mistake. Nevertheless, they took \$30 from the employees. Then they straggled across the hall to the insurance office.

SMITH MAY BE IN 1932 RACE

Man Refused Seat in Senate in 1928 to Try Again

CHICAGO (INS) — Frank L. Smith, who was elected to the U. S. senate in 1926 but was not seated because of his campaign contributions, is considering entering next year's senatorial campaign, political observers believed today.

Smith's statements charging that Julius Rosenberg, financier, offered him \$500,000 worth of Sears-Roebuck stock to withdraw from the 25 cents a share the board probably would consider itself lucky.

STOCKYARDS BURN

CHICAGO (INS) — Union stockyards officials today attributed the cause of a fire which destroyed stables yesterday at a loss of \$25,000.

With HOOVER Daily

On Aug. 15, 1931, J. Edgar Hoover, director of the Federal Bureau of Investigation, was seen at the Chicago stockyards.

To Wed

DENVER (INS) — Paul Whitman, America's "King of Jazz" is returning to the city of his birth today to take a bride for the fourth time in his career.

Whitman will arrive in Denver from Chicago with his fiancée, Margaret Livingston, movie beauty. The marriage ceremony will be performed at the country home of the orchestra leader's parents, Mr. and Mrs. Wilberforce Whitman, near Denver.

Whitman was born in Denver 38 years ago and received his early training in classical music in this city, playing in symphonic and operatic orchestras while yet in his teens. Nearly 16 years ago he went to San Francisco and learned to play jazz, for which he has since become internationally famous.

U. S. GRAIN MAY BE USED TO AID STARVING CHINA

Would Help Farm Body to Dispose of Its Huge Supplies

WASHINGTON (INS) — King cotton and king wheat still straddled the neck of the Federal Farm board today after a week of prodigious but futile effort to dislodge them.

The board's revolutionary plan to reduce the cotton surplus by destroying a third of the crop now ready for harvest has fallen flat.

Every southern governor to whom the proposition was addressed found something wrong with it. Some of them merely dismissed it as being impractical, others, like "Alfalfa Bill" Murray of Oklahoma, who is an exponent of direct action, denounced it as unconstitutional.

As for wheat, a potential market to reduce the surplus by destroying a third of the crop now ready for harvest has fallen flat.

Speaking of the assessment of business and industrial properties Cook said that the board "feels" (Continued on Page Seven)

HOTEL BANDITS STEAL \$20,000

Trio Get \$5,000 Cash And Several Other Valuables

ST. LOUIS (INS) — Three armed bandits this morning walked calmly into the Kingsway hotel, in the exclusive west end district here, bound and gagged the night clerk and two bellboys and proceeded methodically to loot the hotel's safe of money and valuables estimated roughly at \$20,000.

The amount of cash obtained by the robbers was estimated at \$5,000. The Washington Senators American league baseball club which was engaged in a series with the St. Louis Browns here is making its headquarters at the Kingsway hotel, but none of the players reported any loss through the holdup, according to the hotel management.

SMITH MAY BE IN 1932 RACE

Smith's statements charging that Julius Rosenberg, financier, offered him \$500,000 worth of Sears-Roebuck stock to withdraw from the 25 cents a share the board probably would consider itself lucky.

Close friends of Rosenberg, who is ill and has not yet been apprized of Smith's charges, today had corroborated the statement concerning the withdrawal offer, according to reports.

CITY TAXATION INTEREST HIGH THROUGH STATE

Members of League of Iowa Municipalities Discuss Taxes

COUNCIL BLUFFS, Ia. (INS) — Substantial progress has been made in the establishment of uniform assessment policies in the state of Iowa, Louis H. Cook of Cedar Rapids, a member of the state board of assessment and review declared here today in an address before members of the league of Iowa Municipalities which opened its annual four day convention today.

This program will be continued during the next two years and the board of assessment and review anticipates that when the final assessment is made in 1933 that every city of importance in Iowa will be assessed upon substantially the same basis of equalization as every other city, Cook told the Iowa municipality officials.

He was the principal speaker on the opening program which was given over to a study of city taxation.

Interest High In Taxation — There has been during the last week or two very considerable interest in taxation and assessment in the various cities of the state due to the insistence of the state board that all cities must be equalized on a sixty percent basis of valuation and that the data sheet method of assessment must be used," Cook said.

"It has been the general impression of the board," he stated, "that residence properties are already assessed on an adequate base, but that there has been a tendency for extreme variation in many business properties and in some industrial and utility properties."

To Assess Public Utilities — "The board will, next year, act upon the provisions of a law passed by the last general assembly, which requires that public utility properties be assessed for the first time on a public utility basis in the state. This work will necessitate a complete check of current assessments on all public utility properties and the adoption of a general basis of assessments."

He explained that the board feels that in the future all assessments should be based upon no other consideration than that of actual value. According to the Cedar Rapids man the board is aware that many public utility assessments in the past have been based upon agreements as to rates or services rendered.

System Declared Unjust — Speaking of the assessment of business and industrial properties Cook said that the board "feels" (Continued on Page Seven)

PARE TOWN LOT VALUATIONS BY 11 MILLION SUM

Irate Taxpayers Bring About Huge Slash in Assessments

By FRANK CRANE

HEALTH OFFICER TRIED TO ALTER RECORD, CHARGE

**Court Case Against Dr.
G. A. Koehler
Completed**

CHICAGO—(Special)—Dr. G. A. Koehler, suspended assistant health commissioner, was charged before the civil service commission Monday with having attempted to have one of the department chemists alter a report on the alcoholic content of a beer sample submitted by the South Park police.

The charge was made by Dr. Fred O. Tonney of the laboratory staff, and backed later by the story of Mrs. Frances De Young, who at the time was employed in the laboratory. Their testimony and that of three other witnesses completed the prosecution case, on which Dr. Koehler's dismissal is being asked.

"The sample of beer was analyzed and found to contain an illegal percentage of alcohol," Dr. Tonney testified. "Dr. Koehler came to me, asked about it, and when I told him, said, 'Make the report to show that the alcohol content was legal.'"

"I refused, telling him that it was the first time in my twenty years in the laboratory that an official of the department had asked me to change the report of an analysis. He flew into a rage and from that time on made life uncomfortable for me in the department."

Mrs. De Young testified that she was present during a conversation in which Dr. Koehler said, "Damn it, Tonney, you've got to change that report."

Applicants May Now Take Exams for 32 Arsenal Positions

Persons interested in taking civil service examinations which will qualify them for future positions at the Rock Island arsenal in Rock Island, Ill., will be given the chance immediately it was announced this morning at the post-office.

There are 32 positions in the arsenal open for examinations and an applicant meeting the specifications will be eligible to a job when one is open. The applicant must be in good health, 18 years of age and not older than 50, free from serious physical defects, able bodied and physically capable of performing manual labor.

Fingerprints will be taken of all persons appointed as a result of their examinations. An applicant should apply at once for form 1800. He will receive this by writing to Secretary, Board of U. S. Civil Service Examinations, Rock Island Arsenal at Rock Island, Ill., or to the Manager, Seventh U. S. Civil Service District, Federal Building in Chicago.

Following are the positions from which selections may be made: Belt adjuster, benchman, blacksmith, boilermaker, carpenter, dynamo tender, electrician helper, filter operator, firefighter, fireman helper, instrument maker, janitor (male), janitor (female), laborer boy, machine operator, machinist, machinist helper, mason, melter, oiler, plumber, plater and polisher, sandblaster, shop checker, steamfitter, switchboard attendant, toolmaker, tractor repairman, welder and a targeter.

Further information regarding the examinations may be obtained at the postoffice.

Divorce Is Asked By Fred Schmelzer, Claims Wife Cruel

That his wife has been guilty of cruel and inhuman treatment is the charge made in divorce proceedings filed in district court by Fred Schmelzer against Mary Schmelzer. The petition states that the couple was married March 16, 1919, and lived together until April 10, 1931.

Drake and Wilson are attorneys for Schmelzer.

Kiwanis Members Hear Picnic Plans

Clifford Lamb, of Muscatine, a recent graduate of Grinnell college, presented a number of readings at the weekly meeting of the Kiwanis club in Hotel Muscatine this noon. Plans for the club's participation in the inter-service club picnic to be held Wednesday afternoon and evening at Rotary Lodge, were also discussed. Members of the Lions and Rotary clubs of Muscatine and the West Liberty Rotary club will also take part.

Events on the program include tennisball games for the service club championship and other informal sports events.

AROUND THE CORNER

The Wilton Busy Bees Four-H club was given demonstration help this morning by Mrs. Grajce Rylander, home demonstration agent for the Farm Bureau, at the home of Mrs. Herr. This afternoon, Mrs. Rylander assisted the demonstration team of the 76 Jewels club at the home of Mrs. Rose Shellabarger.

Members of the civil service commission will hold another meeting in the city hall this evening at which time a further discussion of rules and regulations governing the police and fire departments will be held.

Robert Fairbanks, of the Fairbanks Home for Funerals, and A. W. Carver, visited the Washington, Ia., Rotary club Monday and told members of the entertainment to be given in Muscatine on Sept. 4 by the U. S. Army band.

Edwin Ryder, 515 Monroe street, will leave Saturday on a motor trip to the west. He is leaving for his home near Lowell. He will also visit relatives at Grand Rapids, Lansing and Battle Creek. He will return the latter part of August.

Frank M. Myers, secretary of the chamber of commerce, returned to his duties today after having spent the past two weeks in Evanston, Ill., where he attended a course of instruction for commercial club secretaries conducted at Northwestern university.

Mrs. R. L. Fairbanks, her mother, Mrs. Vincent Allen and Mrs. Frank E. left by automobile this morning for Appleton, N. D., where they will visit friends and relatives for the next two weeks.

Road improvements in the county were discussed at a conference this afternoon between members of the board of supervisors and F. P. G. Halbach, county engineer.

L. E. Severences of Davenport, traveling freight agent of the Rock Island lines was in Muscatine Monday on business. He returned to Davenport Monday evening.

W. M. Kabela of West Liberty registered a new Ford tudor sedan and James Marold of Moscow registered a new Ford truck at the

county automobile bureau Monday.

Miss Irene Summers of Ardon returned Sunday night from Albion, where she has been visiting friends.

Mrs. G. H. Miller, Route 6, returned with her children Tuesday from a visit at Kirkville, Mo.

Mr. and Mrs. Louis Gaeta and children, 107 Iowa avenue, are visiting relatives in Chicago.

Muscatine was visited by light showers this afternoon, giving indication of much-needed rain for growing crops in this vicinity.

A deed filed Monday at the county recorder's office conveys lot 2, block 54, Butterfield's addition to Wilton from James Atwill and others to Rena P. Atwill.

SOCIETY CHATTER, FEATURES and HELPFUL HINTS for the WOMEN

Dale Reunion Is Held At Fuller Summer Cottage

Ninety members of the Dale family met at the Fuller cottage on Cedar river Sunday for their eleventh annual reunion. A basket dinner and supper were served and various games proved the entertainment for the group during the day.

Officers for the ensuing year were elected as follows: Francis Richard, president; Mrs. Paul Tobias, secretary and Glen Dale, treasurer. It was decided to hold the twelfth reunion at the same place the third Sunday in August next year.

Among those present for the occasion were: Mr. and Mrs. J. Knott and daughter of Bloomfield, Ill.; Mr. and Mrs. Art Long and Mrs. A. Long of Clarence, Ia.; Mr. and Mrs. L. Smith and children, Mr. and Mrs. Herman H. Smith and Mrs. and Mrs. Will Quadt and children, Mrs. H. Munder and son and Mr. and Mrs. L. Senger, all of Davenport; Mr. and Mrs. Lewis of Chicago, Ill.; Mr. and Mrs. David and daughter of Cedar Rapids and Mr. and Mrs. W. Bishop of Cedar Rapids.

Miss Rosenmund Weds Louis Faulhaber

Miss Edith Rosenmund, daughter of Charles Rosenmund, 307 Main street, and Louis G. Faulhaber, 507 Main street, were married at the Trinity Lutheran parsonage in Rockford, Ill. Saturday afternoon at 4 o'clock, according to word received here today. The Rev. Dr. Bannan read the service. The attendants were Mr. and Mrs. R. C. Hubacher, 914 Van Wye avenue, former residents of Muscatine, and Mr. and Mrs. Faulhaber, 307 Main street. Mr. Faulhaber is a city fireman at the central station.

Vanatta Family to Hold Reunion

The fifteen annual reunion of the Vanatta family will be held at Wood park August 27. A picnic dinner will be served at noon and each family will furnish dishes and silver. All members are urged to attend.

Card Party Tonight At St. Mary's Hall

St. Mary's Ladies Aid society will hold their regular party in the school hall tonight. Five hundred and euchre will be played and refreshments will follow the games.

Cedar Street Methodist S. S. to Hold Picnic

The Cedar Street Methodist S. S. will hold a picnic at Wood park Sunday afternoon. Participants are requested to furnish picnic baskets, dishes and coffee.

U. B. Aid Will Meet On Wednesday

Division D of the United Brethren church Ladies Aid society will convene Wednesday afternoon at the home of Mrs. J. H. Canaar, 1106 East Ninth street.

Miss Daelelow to Entertain

Miss Margaret Daelelow, 2502 Mulberry avenue, will be hostess to the Pyramid Builders of the Protestant Evangelical church tonight at her home. Miss Fern Sharar will have charge of the devotional service.

C. D. A. to Hold Picnic

In case of rain the Catholic Daughters will hold their picnic in the Knights of Columbus club rooms Wednesday evening.

Window Shopping

THE CLOTH FROCK
With the return of fall, there is a great interest in frocks of cloth, and the designers are placing on view many charming models, of cloth so supple that it clings like silk. Green is a favorite color in this material and bids fair to have a great success.

ALL WHITE
Exquisitely simple is lingerie made of white silk trimmed with net that is applied by means of embroidery; this embroidery extends over on the net in the form of sprigs of flowers.

HOME-WORK
The feminine woman who likes to sew, will be interested in a semi-made cream linen coat that is stamped to embroidery, with a stunning design in large flowers in pink and blue; all of the design comes upon the skirt part of the coat and the effect is highly satisfactory.

MAKE-UP HANDS
For the dainty woman there are make-up hands to put around the hair while making up or applying cold cream. These come in rubber in lovely pastel shades.

BEAUTY KIT
Surprisingly reasonable is a beauty kit that contains two generous jars of cold cream, two bottles of tonic and orange flower water, powder, and cleansing tissues, all in an attractive green or blue case.

Leghorn Hats
Huge leghorn hats trimmed simply with a band and bow of ribbon are perfect to wear with organdie frocks a fact which numberless smart young women at the resorts have discovered. Some change the ribbons to match the frocks. (Copyright, 1931, by The Associated Newspapers.)

New Coiffure

The above picture shows Miss Ouida Doran of Dallas, Tex., displaying the new coiffure suitable for the new Empress Eugenie headgear. She is attending the Cosmetics and Hair Dressers' convention now in session.

Miss Whitlock And A. Nester Are Wed Today

At an attractive service at St. Mary's church this morning Miss E. Martina Whitlock became the bride of Andrew Nester. The Rev. N. J. Peiffer read the ring ceremony. The bride wore a white satin gown and carried a bouquet of pale pink roses. Her bridesmaid, Miss Matilda Nester, sister of the bridegroom, wore a frock of pale green silk and also carried a bouquet. Cyril Myers served as bridegroom.

After the wedding ceremony a breakfast was held at the hotel Muscatine with places appointed for the bride party and the immediate families. Among those attending were Mr. and Mrs. Clarence Whitlock of Nichols, parents of the bride. Mr. Nester is the son of Mrs. Matilda Nester, 406 East Seventh street.

Mr. and Mrs. Nester will make their home in Muscatine after a honeymoon trip to Chicago and Wisconsin. The former is a mail carrier at the local postoffice.

School Girl, 19, Has Hitch-Hiked Over 5,000 Miles

SAN FRANCISCO—(INS)—Miss Betty Fisk, 19-year-old Chicago school girl, was resting up here today after "hitch-hiking" 5000 miles across the United States, into old Mexico, and up the Pacific Coast—alone.

Miss Fisk was arrested twice for vagrancy, once in Brownsville, Tex., and the second time here. Many times she was forced to use her wits to extricate herself from serious difficulties. But still undaunted and wearing a smile, she appeared before Municipal Judge Alfred J. Fritz and expressed her determination to get a "hitch-hiker's" perspective of Canada before she returns home.

Judge Fritz dismissed the vagrancy charge and presented her with a "traveling allowance."

The girl said that a "wanderlust" inherited from her Romanian gypsy grandmother prompted her to steal away from her home in Chicago on June 7 and start on a "hitch-hiking" tour of America.

"I have traveled over 5,000 miles visiting more than twenty states in this country and four in old Mexico," she said.

"It's a great fun—being picked up by motorists on the highway. But, of course, one has to be discreet. 'Truck drivers are the nicest men. And men with grey hair or blue eyes are usually nice too. I hate riding with women—they preach to me too much, and tell me how dangerous it is for a young girl to travel alone."

"I guess it's dangerous all right. It takes a lot of nerve. Lots of times I have been scared to death but I tried not to show it."

"Very few girls, I think, are qualified to become successful 'hitch-hikers.' At any rate, I wouldn't advise any girl to try it. People everywhere have been very kind to me. Nearly every motorist who gave me a ride also gave me money."

At times I have had to work in order to eat. In Arizona I had a job painting mail boxes for the farmers."

Add a few bread crumbs to scrambled eggs. It will improve the flavor and make the eggs go farther.

To remove coffee stains from linens mix an egg yolk with 1 tablespoon of cold water and rub on the stain; let dry and then wash out in warm soapsuds.

The Decorator's Letter Box

—EXPERT ADVICE ON HOME DECORATION—

A Diagram of the Rooms, Drawn to Scale, is a Big Help in Arranging the Furniture.

Beth Dear:
I'm going to suggest something I know you'll like. You always were keen about maps and charts. So take a piece of paper and draw a diagram of your rooms with every window, door, fireplace and what-all in place and in just the right proportion. You might draw the diagram on a scale of one foot to half an inch, that is a very convenient scale and your drawing will be a good size. For every foot of the length of your rooms made one-half inch on the drawing. If your living room is sixteen feet, make your drawing eight inches. See?

Then cut out little pieces of paper or cardboard in the shape of the pieces of furniture you have or intend to get. You know what comes next—move them around the chart until they make the best arrangement you can get.

Remember you are placing the things in your rooms to get the best use out of them. In a living room there will probably be three useful groupings: a conversational (goose) group, writing group and reading group. Being these you might include a fireside group, a music group around the piano, radio or talking machine.

Your chatting group will include your sofa, a couple of chairs—very

DARE INTERPRETS the MODE

Fremet combines pale blue chiffon and lace of the same shade in a charming evening gown.

These summer blouses are OUT. You just can't wear them any more! The minute you put on one of the adorable new autumn suits you have to change your type of blouse, and the summer ones won't do at all. Their lines aren't right, their colors aren't right and their fabrics aren't right. But is doesn't matter for we have our autumn blouses instead.

The newest kind of blouse this time of the year is the dark blouse—yes, just that, of dark blue or dark red or dark green. In shades harmonizing with your new suit but several shades darker than that, and usually of heavy, not too lustrous satin. And, as light rays are used much more than dark ones to trim these suits, the effect is stunning. And-for change, you must have several white blouses, all long sleeved, which the dark ones needn't be, and all exquisitely and oddly tucked and incruised.

ACE, especially when combined with chiffon or georgette in the same color, is decidedly smart, and very becoming, too.

AND, of course, jewelry with a sun, a love, or any evening clothes that matter, must be smart. A pair of bracelets, like the ones illustrated today, would be so-o-o lovely with the new blouses. They are flat disks of crystal, one transparent and one opaque.

An reveal! (Copyright 1931, by the Associated Newspapers.)

OUR READERS' COOKING

Help the other readers of the Midwest Free Press to cook. Send in the recipes you like best, sign your name, and address, they will be gladly published.

MENU FOR WEDNESDAY AUGUST 19th, 1931

BREAKFAST: Plums, Waffles, Maple Syrup, Broiled Bacon, Coffee.

LUNCHEON: Creamed Chicken on Toast, Sugared Blackberries, Marble Cake, Tea.

DINNER: Cream of Corn Soup, Baked Ham, Brown Sauce, Lyonnaise, Potatoes, Stuffed Peppers, Lettuce, Thousand Island Dressing, Blueberry Pie, Cheese, Coffee.

Broiled Bacon
Place thin slices of bacon (from which the rind has been removed) closely together in a fine wire broiler. Place broiler over dripping pan and bake in a hot oven until bacon is crisp and brown, turning once. Draw on brown paper. Fat which has dripped into the pan should be poured out and used for frying liver, eggs, potatoes, etc.

Marble Cake
One-half cup butter, 1 cup sugar, 2 egg yolks, 1-2 cup milk, 2 egg whites, 1 3-4 cups pastry flour, 3 teaspoon baking powder, 1-2 teaspoon cinnamon, 1-2 teaspoon nutmeg, 1-4 teaspoon salt, 1 tablespoon molasses. Cream butter and sugar; beat well; add yolks beaten until thick; flour in which salt and baking powder have been sifted, alternately with milk and stiffly beaten egg whites. To 1-2 of this mixture and the spices, pour into pan the light and dark mixtures irregularly.

Cream of Corn Soup
One cup milk, 1 can corn, 1 onion, 3 cups thin cream sauce, salt.

Chocolate Cake
Beat 2 eggs, add 1 cup sour cream 1-2 teaspoon vanilla, sift together.

CHAPTER XXXIII

Beth Brakes Fate
Beth with conflicting feelings. She looked forward nervously to Phil's attendance at the board meeting. She remembered with regret the way Caroline had spoiled her one evening with Philip.

"She has so much," Beth thought, lying lazily in bed, "surely she might have let me have that one evening—just a few hours with him."

Caroline's message had ruined that drive home. Phil had been very silent, all the camaraderie of the earlier part of the evening gone. Beth had told him good night rather shakily, near to tears from weariness and disappointment. Now she got herself out of her bed and thrust her feet into her slippers.

"I must be early at the office. Phil might have some last-minute changes he would want to make in the plans. She dressed slowly, wishing again that she might have some new spring clothes. As she went to the closet to take down her office dress she stopped to look at the smart suit, part of the trunkful of clothes that had arrived seven months before but never worn.

"I might start wearing this when the weather gets a bit warmer. It shrieks for a fur, of course, but I can buy a scarf to give it color."

The dark gray coat and skirt and the soft gray satin blouse were lovely, and there was a hat to match the coat, too. Yes, when the sun shone a little more brightly Beth would wear that outfit, but today was too chilly, cloudy, not spring-like, as yesterday had been.

"It Will Take a Month"
Beth arrived at the office before any one else. She went in and looked into Phil's file. All the papers were there—they seemed almost like children of hers, she had worked so hard, and so faithfully to get them ready. Nine o'clock: she had thought Phil would be in early. Nine-thirty—the board meeting was at 11. Beth gazed moodily at the clock. Of course, Phil hadn't expected to be called in before 11:30, or maybe 12. There were routine matters to be disposed of before she was ready to consider his plans.

Ten. Beth could not understand it. She thought of calling his house, dismissed the idea, and settled herself to wait.

At exactly ten minutes past 10 his phone rang. Beth answered.

"This is Miss Gibbons speaking." It seemed to Beth the voice was less assured than usual. "I'm sorry, but I can't come to the office this morning—and this was to be his big day. I want you to do just as I tell you, Arnold."

"Of course, Beth. Is it something serious?"

"Very. Phil's been hurt, Arnold. In an automobile accident out on Long Island, last night—oh, not fatally, but badly. He can't come to the office this morning—and this was to be his big day. I want you to do just as I tell you, Arnold—promise me—I'll explain it all later."

"What would Phil want her to do? With a very thoughtful face she went into Arnold's office and stood looking at him, her back against the door.

"Arnold."

He looked at her in amused surprise. "Yes, Joan of Arc. You look as though you were about to start a crusade."

"I want you to help me," she said slowly, "and not ask any questions, just do as I ask. Will you, Arnold?"

"Of course, Beth. Is it something serious?"

"Very. Phil's been hurt, Arnold. In an automobile accident out on Long Island, last night—oh, not fatally, but badly. He can't come to the office this morning—and this was to be his big day. I want you to do just as I tell you, Arnold—promise me—I'll explain it all later."

"I know, that's why I'm calling you."

New Contender For 1st Oversea Flight By Women

OLD ORCHARD BEACH, Me.—(INS)—Who will be the first woman to pilot an airplane over the perilous airways of the Northern Atlantic?

Miss Ruth Nichols, New York society aviatrix, thought she would be the first but she "cracked up" in landing her plane with consequent damage to the Maritime Provinces from New York.

Next Miss Laura Ingalls thought she would be the first but she has been delayed in New York.

A new contender for transatlantic honors among women is Mrs. Gertrude Lofredo, Buffalo, N. Y., aviatrix and parachute jumper. She is planning a flight to Rome from this beach, and believes she will be the first of the fair sex to negotiate the trans-atlantic crossing.

Mrs. Lofredo will fly her recently purchased airplane "Liberty" the same "ship" which took Otto Hellig and Holger Horris from New York to Denmark.

The silver and orange monoplane has been reassembled at Scarborough airport, near here, after having been shipped by steamship from Denmark to Portland.

"Liberty" has accommodations for six passengers, but only one will fly on the dash from the long crescent sands of this beach to the Eternal City beyond the seas.

Mrs. Lofredo as pilot and her aide, Captain Retano Donati, from Scarborough airport, Mrs. Lofredo flies to Paterson, N. J., to have the plane rechecked at the airplane factory. Then she will fly to Buffalo, where Italian societies are sponsoring her air voyage. Then she will come here for the takeoff.

VENUS, STOLEN, FOUND, BY 'VACCINATION' MARK
SAN FRANCISCO (INS)—Identified by a "vaccination mark," Venus de Milo, missing here for four days, was recovered by the police in San Francisco's famous Telegraph Hill artist's colony.

Venus was abducted, according to a police circular, from the lobby of a fashionable apartment house. Of fine bronze, she was two and a half feet tall, and weighed 150 pounds. A mark on her right shoulder was described as a "vaccination mark" in the police circular. As the result of a telephone tip, police found the Venus in a private park on Telegraph Hill, arranged artistically with another statue of a man in armor. They draped her modestly in a blanket and brought her to police headquarters to be recovered by the owner.

The "Liberty" has accommodations for six passengers, but only one will fly on the dash from the long crescent sands of this beach to the Eternal City beyond the seas.

PRINCESS TO HOME TOWN

NEW YORK—(INS)—Prince Johann of Liechtenstein and his bride, the former Miss Alene McFarland of Weatherford, Tex., stopped in New York before going south to visit the Princess' mother. The slender dark-haired princess who was married in London on July 29 was anxious to visit the scenes of her childhood. So was the Prince who refers to Mrs. McFarland as "the most beautiful woman in the world." While discussing the trip to the Texas hamlet, the Princess said there was probably no the usual rubbernecking and gossip along Main street.

WEDDED WOMEN
THE ABLER
NEW YORK—(INS)—Married women are more capable than those not married and should be retained as teachers in public schools, students at the summer session of Teachers college, Columbia University, have declared. This statement appeared in an editorial of the school paper published by the students. Moreover, it was admitted that the public sentiment was against employing married women, but according to the students, the traditional idea that a married woman's interests are in the home caused this attitude.

As We See It

One Farm Organization

Approximately 100,000 people have gathered this summer to hear Norman Baker speak. The meetings, scattered through a number of counties, have been setting unheard of records for attendance. At each one of these meetings, Mr. Baker has stressed one solution for the difficulties facing the farmers, the formation of one huge farm organization.

There are some things so perfectly evident they need no proof and included is the fact that the farmers could accomplish more in one organization than they ever will by dividing their forces among many organizations.

However, as if to emphasize the accuracy of Mr. Baker's analysis of the farmers' trouble, the American Farm Bureau and the National Grange are again pulling in opposite directions on the question of what relief the farmers should have.

On the one hand we find the Farm Bureau serving notice, through its president, Edward A. O'Neal, that it will renew its demand for the equalization fee, the essence of McNary-Haugenism. On the other hand we find the National Grange just as positively declaring for the export debenture plan.

We do not care to enter into a discussion here of the relative merits, if any, of the two plans. The solution of the problem of raising farm produce prices may lie in either, neither or both of these plans.

The point is, that the two most powerful farm organizations cannot agree between themselves upon what they want. The "one farm organization" plan would eliminate this sense-

less pulling apart. If the farmers, rich and poor, tenants and owners, were banded together into a solid unit, their collective voice could be heard.

The sad part of it is, that neither the Bureau, the Grange nor any single farm organization can speak for a large percentage of the agricultural population. One organization truly representative of agriculture would quickly take its proper place in the country.

To form a single farm organization will be no child's play. It will require real leadership and disinterested leadership. Farm organizations, like many other organizations, are attractive sinecures for people who draw large salaries. None of the existing bodies' leaders are going to willingly give up good jobs.

The movement must be spontaneous and from within. It will take time. Farmers, better start now!

Double Parking

A situation in which the newly created police board might well become interested is the practice of double parking on Second street. In spite of frequent protests against this practice, it continues.

There is no reason why an automobile driver should be allowed to inconvenience and discommode others by parking double. It is unfortunate that our streets are too narrow to permit of the accommodation of those who seem to enjoy double parking, but THEY ARE too narrow.

Various service clubs have, from time to time, taken up this problem, but, as Mark Twain said about the weather, people are always talking about it but no one ever seems to do anything about it. There are always plenty of patrolmen on Second street, especially on Saturday nights, to abate this nuisance, but it remains unabated.

While on the subject of parking, why is it necessary to

use Second street for loading and unloading everything from ice to packing crates? Our alleys are wide enough and all, or nearly all, Second street establishments have rear entrances where the loading and unloading of merchandise could be carried on.

We invite the farmers and residents of surrounding towns to come here to shop and then clutter up our streets with express wagons, grocery trucks and whatnot to the extent that an automobile driver must exercise the skill of a deep-sea pilot to get through.

Not long ago, in the 200 block east on Second street, an ice wagon headed east was reloaded with ice from a truck headed west. To accomplish this feat it was necessary to block traffic for several minutes while the west-bound truck backed across the street, on the wrong side, until the rear ends of the two vehicles were brought together.

We have a grave suspicion that a lot of our Second street parking problems are the result of local business and professional men pre-empting parking space for their own cars.

Women Prohibition Agents

The past decade or more has witnessed the gradual infiltration by women into various industries, professions and activities. The old bromide about woman's place being in home has become so out-moded that it is seldom heard.

Some of the places into which women have barged, however, might well have been left as exclusively male preserves and one of these places is gathering evidence against prohibition law violators by making "buys."

The incident at Buffalo recently when a young girl was arrested for intoxication and claimed to have been hired by the bureau of prohibition, has called forth considerable condemnation of the prohibition forces by the press of the country.

It is refreshing to note that the young woman was not an

officially employed agent of the bureau. According to an announcement by the bureau, its policy is to frown on the employment of women in the agency force of the prohibition corps.

The director of the prohibition bureau is quoted as saying, "We see no need for employment of women in that work. We frown on it in every respect and we are not permitting it. There may have been some cases where investigation may be carried out properly by women agents but their use is against our policy."

According to the bureau, there is no record of the young woman who figured in the Buffalo incident having been so employed. No federal funds have been allotted for payment to women in the agency force, and it is not contemplated that any will be set aside for use in that way.

The Buffalo incident is being made the subject of inquiry by the bureau and the agents who were responsible for hiring the young lady in question have been relieved of active duty until the case is thoroughly investigated.

It is possible some cases might arise where women could be used to advantage as prohibition agents, but it is hard to conceive of a case where men would not serve equally as well.

Two Wenatchee, Washington, boys found guilty of speeding were sentenced to copy the traffic code of 31,000 words. They will probably find a clause in it somewhere which will prove them not guilty.

Our Platform for the People Is:

1. Less taxation.
2. Fewer State Commissions.
3. Universal school books.
4. Lower freight rates.
5. Return of river transportation.
6. A cleanup of some state institutions.
7. More efficiency in public offices.

Medical Fallacies

PREVENTIVE MEDICINE PROMOTED BY COMMERCIALISM

There is no doubt that the public health is improving. Statistics prove the assertion. In addition, the span of life of the average man has been increased by seven years during the last decade. There has been a decrease in death and morbidity rates in all parts of the country.

While a great deal of credit for this improvement has been claimed by the medical profession, and attributed to preventive medicine, the fallacy of such claims has been proved beyond any possible doubt. In fact, it has been shown in this series of articles that where preventive medicine has been practiced the most extensively there has been a decided increase in disease, especially among school children who have been the victims of so-called preventive medicine more than any other class of people. It has been shown also that the extensive use of serums and vaccines cause widespread sickness and disease. Were it not for preventive medicine, there is no doubt that the public health would have shown an even greater improvement than has been the case of recent years.

In this series of articles it has been shown that the commercial method of protection against disease is pure blood. Anything which destroys pure blood cannot be any protection against disease. Serums and vaccines are poisons and make the people "immune" against disease. The fallacy of this method has been proved by statistics and by the highest authorities—many of these authorities formerly advocating this method, due to false education.

That commercialism is behind preventive medicine is most evident when one considers the numerous advertisements appearing in medical journals and in our daily papers. In fact, of recent years there has been an increasing number of articles in medical journals in which the commercial aspect of so-called preventive medicine has been frankly discussed. Take, for example, the appearance of the Journal of the Medical Society of New Jersey for July 1931. It is a striking illustration of such articles in which commercialism is considered before the health of the people. Doctors cannot help but know the damage done by serums and vaccines. Still, legislation is constantly being proposed, with medical association behind them, in which vaccines and serums would be forced on the people, particularly on school children.

In the article referred to in the New Jersey Medical Journal, the financial returns to the doctor from preventive medicine are discussed frankly, and the advantages to the patients are not even mentioned. It says:

"Family Doctor's Income in Relation to Preventive Medicine"

"From time to time the question is raised as to what effect the extensive program of preventive medicine that is developing in many parts of the country will have on the income of the practicing physician. The falling death and morbidity rates in all parts of the country compel recognition of the fact that this question has other than academic significance. Thinking persons realize that the practice is no more a static condition than any other human relationship. In the evolution of social adjustments, the means and mechanism of furnishing necessary human service must be modified to meet changing conditions. The shrewd horse trader long ago sold his lively stable and bought a garage. The physicians of the kerosene era ob-

tained a large part of their income from the treatment of diphtheria and infantile diarrhea. While preventive medicine has reduced the physician's income from both these sources almost to the vanishing point, the physician of the gasoline age has more practice of a far better kind. (Meaning, of course, the use of serums and vaccines in making the public "immune" against disease.)

"Mathematic demonstration of this statement may be presented with available figures. The last of 1930 population. A comparison of incomes to the physicians between fees received for treatment of cases and those paid for immunization of babies reveals that even where the disease has the above unusual prevalence, preventive medicine is as productive financially as curative medicine. The income from treating 8 cases of \$50 each would be \$4,000. Among each 100,000 population there were 2,200 babies born. If each of these babies had been immunized at only \$3 each, the income from this practice in 100,000 population would have \$6,600. It is also to be noted that these data predicate only the immunization of the newborn, or an equivalent number of persons in the community. There are of course 4 times as many pre-school children as babies, and 10 times as many school children. The opportunity for increasing practice by carrying on immunization among the pre-school population in the physician's clientele offers an almost unlimited field.

It has been truly said that a nation's greatest asset is physical and mental health. The prosperity and happiness of a people are dependent upon physical vigor. Still, inoculation with serums or vaccines in any form, whether for attempted prevention of diphtheria or any other disease, is a serious menace to health which is the nation's greatest asset. Prevention or attempted prevention by this means is widespread, and COMMERCIALISM is the only reason behind the method which is known to be worse than useless. The false theory on which it is based has been proved beyond doubt. Millions of dollars are invested in laboratories where serums and vaccines are manufactured. Naturally these manufacturers will do all in their power to promote the false ideas concerning the effectiveness of so-called "immunization." Legislation is proposed at practically every session of any law-making body to force these nostrums on the public regardless of their own personal preferences. Only 30 percent of the people favor Allopathic medicine. Still, almost without exception health officials, members of boards of health, school medical inspectors, and all others interested in "public health" are attempting to force Allopathic medicine on all the people, and are agents of the medical trust. It is commercialism, backed by organized medicine that is responsible for the untold damage to the public health. It will continue, too, until the public becomes well enough educated in health matters to refuse any and all medication not of their own choice. That should be the right of the individual just the same as it is his right to choose his own religion. If he does not want any medicine, it should be his right also to refuse medication. Truth will overcome false propaganda, and advertisements of organized medicine in the form of news items will fail to impress the public when educated in health matters. There is a growing interest in health education—and natural methods are coming into their own.

Just Kiddies

By T. W. Burgess

A HOT PLACE IN A COOL PLACE

How can it be so hot in a cool place? Just ask Farmer Brown's Boy. He knows. He had gone to the Green Forest because he had thought it would be cooler there than anywhere else on that dreadfully hot day. And he was right. In the depths of the Green Forest, where the trees were tall and the trees made shade, and it was only here and there that the Jolly Little Sunbeams could find a way through the millions of little leaves of the Green Forest.

When at last he reached the big hollow tree which was Buster Bear's storehouse, and which at that very moment Buster Bear was robbing of its honey, Farmer Brown's Boy was still quite cool and comfortable. But no sooner did he discover what was going on than he broke out into perspiration just as if he had suddenly stepped into a very warm place. Of course the air was a little warmer there than elsewhere in the Green Forest. It was excitement and perhaps a little of the heat that had reached him if Buster Bear should discover him that made Farmer Brown's Boy perspire and feel suddenly hot all over.

A few minutes he just stood right where he was and stared. He knew that Buster Bear was very fond of honey. You remember that Buster and Farmer Brown's Boy had been in the Green Forest for some time. Farmer Brown's Boy had frightened him away. But he never had seen a bee found a particularly pender spot and thrust her sharp little lance into it, and right on top of that would be a grunt of pure enjoyment as he scooped a lot of honey into his mouth.

It was funny. Yes, sir, it was a funny sight to see. Buster squirmed and twisted as the bees stung him, but he didn't once stop scooping out of that honey. It was smeared all over his greedy face. It had dripped down on his black coat. He was getting more and more excited. He was plain to see that he didn't mind this in the least. In fact, he didn't mind anything not even the stings of the bees. He had forgotten everything but the honey.

Farmer Brown's Boy wanted to stay and he wanted to go. He wanted to stay to see what Buster would do when he finished all the honey. He wanted to go because in spite of the fact that every time he had chanced to meet Buster Bear had run away as fast as ever he could. Farmer Brown's Boy couldn't get over the idea that Buster might not always run. You see Buster is such a big fellow with such great claws and teeth that he would be a terrible enemy. But he felt a wee bit afraid of him.

Now about this time Buster Bear and her fellow workers made up their minds that they would drive Buster Bear away, and the least excited of them began to load themselves with sweets from their storehouse to carry to a new storehouse. They knew that they had to begin their summer's work all over again, and they didn't propose to waste any time in crying over what had happened. They would save something from the wreck with which to make a new beginning. So most of them hurried to load themselves with honey before Farmer Brown's Boy should get all of it. But a few, still mad clear through, were flying about looking for new enemies, and some of these discovered Farmer Brown's Boy.

In an instant they had darted at him. Before he knew that he was discovered what felt like half a dozen red-hot needles were thrust into him and the angry hum was all about him. That part of the Green Forest to which he had gone because of its coolness had suddenly become a hot place, and with every thrust of these little lances it became hotter. Farmer Brown's Boy was no longer in doubt. His mind was made up. He wanted to go, and to go as quickly as he knew how.

Board of Examiners.

The only one ever appointed on in the past thirty years without applying for it, and I have steadfastly stood by my own convictions.

They threatened to oust me out of the National Association, when I first announced a "Cure for Typhoid" back in the nineties. To Mr. Baker extend my compliments and congratulations and believe me the reward will result in victory over "enemies." Win the applause of all who know him and know of him.

Cordially yours,
John P. Rice, M. D.,
310-12 Texas Theater Bldg.,
San Antonio, Texas

Good Health Club

"NATURAL FOODS NO. 4"

Today we are presenting another list, with a short description, of the "natural foods." Good health lies in knowing what the better foods are and what they will do toward building better health.

BEANS: Beans, like peas, belong to the legume family which contains nitrogen, starch and protein. As we all know, there are quite a number of different kinds of beans. We have various garden varieties and also the soy or field beans. Beans when used green are better than when dried as the starch is not so fully developed. We are all eating too much starch as it is.

POTATOES: A vegetable which is used the world over; boiled, baked, fried, and served in many other ways. When baked in their jackets these tubers are a very delicious article of food. Often, people are advised to eat the peelings of potatoes as well as the inside. It is claimed that there are valuable elements directly under the skin which are rich in potassium and quite an amount of phosphorus. This vegetable may also be eaten raw.

The sweet potato is rich in potassium, some chlorine, and is rich in carbohydrates. Sweet potatoes are not suitable for some people as the cooked sulphur is explosive and the gas. The Irish potatoes are often used to break a fast and are helpful in cleansing the stomach.

CARROTS: A healthful and useful vegetable. If one likes them uncooked they are like so much more beneficial. There are cases however when raw food of any kind is harmful even in the beginning of treatment of indigestion. Cases that have poor teeth or poor digestion are better off by leaving these fibrous vegetables softened by cooking. The carrot may be grated by hand and used alone or in combination with other vegetables in either cooked or raw salads. Carrots and apples are very good together. They also blend very nicely with celery and nuts. This vegetable is well known as a beautifier of the hair and skin. Such cases as dropsy, asthma, and neurotic cases will find this vegetable very beneficial.

CABBAGE: The cabbage is known as one of our most healthful vegetables. The cabbage contains many valuable elements that are useful in asthma, diseases of the eye, tuberculosis, scurvy, gout, and is very helpful in supplying the necessary substance for building teeth, hair, and nails. The greatest benefits will be found where it can be eaten raw.

ASPARAGUS: This well known vegetable exerts a gentle action upon the kidneys and may be prepared in various ways. MUSHROOMS: Mushrooms are a nutritious article of food and are usually used in soups and sauces.

Nuts form a very rich nourishing portion of the natural foods and it takes only a small amount of them at a time to satisfy the needs of the body. They are better eaten with raw and cooked vegetables and should take the place of meat at meal time. Like meat, nuts are better when not combined with starches.

Being very rich, nuts should be eaten with the meal like meat and not in between meals or at the end of a meal when the stomach has a supply of food to handle. Thoroughly masticate nuts until they form a milky pulp. Fresh fruits

Give It A Thought

By Joseph A. Sadony

When you have patience
You let the devil go by racing with himself.

And you find an Angel slowly walking.
Who reaches the goal first,
For she needs no court or church,
She walks where the foot-prints of man are never seen,
And is Justice herself.

Nothing ever races, except in fear.
Or in selfishness to possess.
The waters that gush through a broken dam
And rush onward, carry within themselves destruction, dirt, and filth.

Having but short life because of their speed.
But the slow-running brook disturbs nothing.
It sings on its way, purifying, giving drink,
Filtering through the sand once again.

Meeting sunlight in the pure state—
Gushing from Mother Earth's breast, that all may drink and live.

JUSTICE is an axe in the hands of trusted pioneers.
It must have a keen edge.
Gained from experience.
It must be tempered with prudence.

It must be used with discretion and consideration.
With sympathy and kindness.
Then, and only then, will Law and Order
Uphold the Ideals of God's noblemen.

A man can think justly in the same measure
In which he has solved his own world problems.
Beyond that he must assume,
Wily or unwisely according to his enthusiasm.

And his soul's approval.
Man must pay for all he gets.
And he gets all that he pays for.
Whether he uses counterfeit or genuine coin.

Justice may appear blind,
But the scales are level and equal,
and record their findings.

was open session, which was defined by C. E. Miller of Savannah, Ga., as "magic words giving entrance to a closed door." "A sure opening to some desire" wrote Elizabeth Stokes of Benham, Texas. From R. Helen Jefferson of Spokane, Wash.: "Her smile was an openess to the old man's stories." And from H. L. Heinlein of Spirit Lake, Ida.: "It is the open session to all knowledge."

Learn to Know the Right Word

By W. C. Nicholson

MORE CONTRIBUTIONS

We are now approaching the end of the discussion of the Summer Part one, part two, and a section of part three have already appeared, and we now have before us the last seven words to be defined and illustrated. As you know, the author is supplying the definitions and the illustrative sentences, and so let us proceed.

The fourth word in part three was exotic. This was defined by Dorothy Ingalls of (unknown-city and state not given in letter) as follows: "An adjective describing things foreign, such as a custom, word, or plant." Charlotte Rosestern of Brooklyn, N. Y., offers the following illustration: "A Japanese geisha girl is as exotic as a rare flower." The following was written by James A. Clarkson, Jr. of Hopkins, S. C.: "In the moonlight she looked like some exotic flower from a tropical climate."

"A midget or dwarf" is the definition of midget, given by Mrs. V. C. Hendricks of Rock Hill, S. C. On the other hand, Mrs. R. F. Parker of Upper Granville, N. S., writes, "Human model ordinarily to show off styles in clothes." By way of illustration, Mrs. T. M. Cathcart sends the following sentence: "The manikin is very graceful." The manikin was exhibited in the art gallery" is the version of John Collins of Seattle, Wash.

The next word (or expression)

FACTORY LEAGUE TITLE WON BY DOWNEY BOOSTERS

CUBS MOVE UP TO SECOND ON TWIN BILL WIN

Malone and Smith in Form and Take Two From Braves

By COPELAND C. BURG
INS Sports Writer

NEW YORK — Persons who believe in near-miracles, such as the one-minute-to-play bedtime story with the boy hero dashing 75 yards for a touchdown, later marrying the girl who was waving from the stands, today turned fond eyes on the Chicago Cubs.

They sensed a dramatic situation their winning drive and that the St. Louis Cardinals would take a long dive in one of the biggest slumps on record, thus making a race in the National League.

Chicago moved into second place, passing the New York Giants, as the y grabbed their second doubleheader in as many days, which went to the Boston Braves. They are still almost nine games behind the champion Redbirds of St. Louis, which is considerable to be behind this late in August.

Malone, Smith Win
Pat Malone dished up only three singles in the first affair, winning 6 to 0. Smith gave Boston eight hits in the 3 to 2 finale, which went ten innings. A wild pitch by Randy Moore from third permitted Grimm to reach first in the tenth and he scored with the run that counted most on Bell's single.

The Giants broke even with the Cardinals, losing the first clash 6 to 5, but taking the evening hit 7 to 5. Jim Bottomley, who can't hit in the world series play, knocked a homer to feature the Cardinal triumph, while Terry spun a four-baser in the Giants' prosperity that started a five-run rally in the eighth. Paul Derringer, the new pitcher, pitched better than the veteran Travis Jackson, New York shortstop, had his nose broken when struck by a liner off Gelbert's bat.

Reds Wallop Robins
Those wretched Brooklyn Robins lost the last of their tail feathers as they dropped a double bill to the extremely lowly Cincinnati Reds. Sillas Johnson scored a well earned victory in the opener, taking 4 to 2, how the Reds retained in the second half of the program as Collins hurled masterfully, horsecollaring the enemy 9 to 0.

The Chicago White Sox and the Red Sox of Boston were tied today for sixth place in the American league after the Bostonians took the final of the series in Chicago, 3 to 2. Russell pitched for the winners and eased through to a success.

Vic Sorrell surprised the New York Yankees and himself by winning a ball game. He limited the New Yorkers to seven hits and Detroit won, 8 to 2. Gerald Walker celebrated his arrival from Toronto by hitting a three bagger to score a run and also stole home. Gerald is one of two outfielders introduced in Detroit by Bucky Harris this spring and has been getting seasoning with the Canadian club.

Other clubs idled it. Scores by nings:

3 TITLES
Three titles will be in the ring, two of them at stake, when Tony Cansoner and Kid Chocolate clash in New York, Sept. 10. Tony is light and junior welter champ and will risk his crowns. The Cuban is junior lightweight champ but that title will not be open.

Gil Dobi's face is an eighth of an inch longer this summer which indicates Cornell prospects are bright.

STRANGE AS IT SEEMS

by John Hix

The gigantic "Coleman frog" was so called because it was found by Fred B. Coleman. At the time it was found the creature weighed seven pounds. Coleman had difficulty in finding food that it would eat, but after much experimenting a diet was found that agreed with the frog to such an extent that in seven years it grew to weigh 4 1/2 pounds, and measured 64 inches from tip to tip. The frog made its home in a lake near Coleman's home and in time became quite tame, so that it would come when called. It was accidentally killed by poachers.

In addition to naming all of their children in alphabetical order Mr. and Mrs. Ginn gave each of them a name containing exactly six letters.

Any reader wanting further proof of anything depicted here should address the author, care of this paper, and enclose a stamped and self-addressed envelope for reply.

GEHRIG PLAYS 1,000TH GAME WITHOUT MISS

Two Seasons Without Break and He Will Shatter Record

By LES CONKLIN
INS Sports Writer

NEW YORK — It was late of an October afternoon about ten years ago on South Field, New York, and the eleven moleskin warriors of Columbia crouched in the shadow of the Amherst goal posts.

The ball was about three yards from the posts, which in those days stood directly on the last chalk mark. Wild-eyed undergraduates in the stands were rooting frantically for the touchdown which would mean steak instead of pancakes during the ensuing week.

Plunging into Post
Columbia's left half took the pigskin and dove through left tackle like a runaway freight train. The stocky sophomore batted his head squarely against one of the posts with such force that the impact could be heard in the stands.

Trainer and water boy dashed on the field to revive the stunned player, but before they could reach the scene he was on his feet and muttering "gimme that ball again."

"Tough, that guy," commented admiring thousands in the stands.

Tough he was, and will be for a long time, that Henry Louis Gehrig. Now baseball's new "Iron Man," today at Detroit he will play in his 1,000th consecutive American league game as a member of the New York Yankees.

Streak Starts 1925
The start of Gehrig's remarkable streak on June 1, 1925, marked the break-up of the great New York machine and the rebuilding of another. Less than a month earlier, Everett Scott, the veteran New York shortstop, had been benched, to be the best game of the tournament. The Elks, American league champions, drew the bye and will meet the winner of the Wednesday night tilt on Friday evening.

Two more seasons without a break and Gehrig will shatter Scott's mark, Huggs, Long's remarkable physical strength and sturdy legs, has enabled him to keep going despite several hasty spills.

Since joining the Yankees Gehrig has scored 894 runs and made 1,297 hits, including 219 home runs. He hit 21 homers in 1925, 1926, 47 in 1927, 27 in 1928, 35 in 1929, 41 last year and 32 to date this season.

Perry Figured to Defeat Allison in Newport Tournament

NEWPORT, R. I. (INS) — Fredenak J. Perry, a big tennis star, known as the new menace to American courts, was to take the spotlight here today when he meets Wilmer Allison of Dallas in his third round match of the Newport Casino tournament.

The general opinion was that Perry will romp through Allison. No casualties were recorded yesterday as most of the field finished two rounds of play.

A new fight arena has been built at Laurel, Md., attracting fans from Washington, D. C., where professional boxing is prohibited.

Uncle Robbie Takes Players On as One Plays '500' Rummy

By LES CONKLIN
INS Sports Writer

NEW YORK — Uncle Wilbert Robinson, portly manager of the Brooklyn Robins, ought to be an ardent devotee of the intriguing card game known as "500 rummy."

For like the rummy player who is fond of picking up a long string of east-off cards in the hope of melding fifty or sixty points, Uncle Wilbert simply cannot resist the temptation of buying discarded ball players who give promise of performance with their former skill.

The Brooklyn lineup is cluttered up with players who at one time or another have worn the livery of other big league clubs. The latest acquisition of the Flock is Denny Sothorn, chunky outfielder, who once roamed the pastures for the Phillies and Pirates. He recently was purchased by the Dodgers from the Baltimore club of the International league.

The speedy Sothorn is slated to get Johnny Frederick's job as center fielder and lead-off man when the latter regains his brilliant form of 1929 and 1930 when he was one of the sensations of the National league.

Frederick was one of the weakest cogs in the Brooklyn machine during the club's last western trip. He has lost some of his speed, has been guilty of erratic fielding and has been batting at the unimpressive gait of .250.

Sothorn comes up from Baltimore with a batting average of .327 and should hit close to 300 in the National league. In 1928, his first year in fast company, Dennis hit .285 in 141 games for the Phillies and jumped to .306 the following year. Last season he dropped to .265 and was sent to Baltimore by the Pirates, who were well supplied with outfielders.

Sothorn's speed on the base paths this year attracted the attention of the Brooklyn club. He led the base burglars in the international league pilfering thirty-two bases in ninety-eight games and scoring seventy-six runs.

Dennis is not a finished outfielder but his fleetness of foot enables him to get under drives that many other gardeners would be unable to reach. He is expected to speed up the attack of the Robins, whose slowness afoot has caused extreme anguish among the Flatbush fans.

Wednesday night under the floodlights at the Jefferson field the first battle of the city kittenball tournament will be staged with Downey's Boosters and Figgs's Tire Shop team clashing in what is expected to be the best game of the tournament. The Elks, American league champions, drew the bye and will meet the winner of the Wednesday night tilt on Friday evening.

Two good preliminaries are being arranged by the Y. M. C. A. officials. The Muscatine Butchers will play the Muscatine Grocers in the preliminary Wednesday night game. If plans go through the fat men of Muscatine will meet the "Skinny" men, in the preliminary to the city finals Friday.

Ben Boldt and Ray Schumacher will be the umpires. Both games will be seven inning affairs. The preliminary engagement Wednesday night is scheduled to get under way at 7:30 with the main attraction slated to begin at 8:30.

SHADE DEFEATS BOSTON BOXER
Willie Oster Unable to Solve Style of Ring Veteran

CHICAGO (INS) — Improving with age, Dave Shade decisively defeated Willie Oster, Boston middleweight, in a 10-round fight here last night.

Shade ducked and weaved around the flat footed Oster and goaded him with the repeated query "How did you ever knock out anyone?" Ringside experts gave Shade every round.

Henry Firpo, Newcastle, Pa., middleweight, rallied to outpoint Johnny Burns, California, in a fast and furious semi-windup.

HOP, STEP AND
Two American candidates in the hop, step and jump for the Olympics next year are Bob Kelly, a mailman of San Francisco, and Ed McGee, a policeman of Baltimore. Both have shown good form.

BETWEEN
Night baseball is popular in many minor league cities and others have asked to the sunshine variety, Toronto and Montreal, Canadian cities in the International, are playing twilight games this year.

MISS GREEF TO TAKE ON HELEN

Grim-Visaged Kansas City Star Tackles

By LES CONKLIN
INS Sports Writer

FOREST HILLS, N. Y. — Old Man Opportunity will have to get himself a new set of knuckles before this week's national women's tennis championships at Forest Hills are completed.

The old man is working overtime at the ladies' tournament, knocking at the doors of humble and proud alike. Obscure players who have never even seen their names in the headline are being offered chances to climb into the charmed circle of the stars whom the U. S. L. T. A. honors with a ranking.

And veterans who have basked long in the limelight are being afforded opportunities to boost their high ranking still higher.

Among the latter is Mary Greef, grim-visaged Kansas City star. There isn't a chance in a hundred of anybody's beating Mrs. Helen Wills Moody for the championship, but a good showing against the great Moody would count heavily in favor of the fortunate player who could extend Queen Helen.

Just such an opportunity is presented Miss Greef this afternoon, when she opposes the champion in the second round.

No American player has been able to force more than two or three games from Queen Helen in several years, with the lone exception of Mrs. Marion Zinderstein Jessup, who jimmied seven games from the world's champion at Seabright recently. If Miss Greef duplicates Mrs. Jessup's feat, you can look for the name of the Kansas City girl at least two notches higher among the first ten.

Dot Andrus Climbing
Dot Andrus, Stamford's hard-hitting heiress, who ranks only twenty-second now, but whose clean sweep at Longwood has already assured her of a much higher listing for 1931, is another veteran who can do some climbing.

Miss Andrus battles Mrs. Elsie Goldsack Pittman of England, the recently crowned eastern champion, in the second round. The No. 1 ranking star, Mrs. Lawrence Harper, shouldn't have too much trouble defeating redhead Norma Tanbelle today.

Griffith Discounts Pritchett Warning Or Stadia Taxation

CHICAGO (INS) — Maj. John L. Griffith, commissioner of the Western Conference, today discounted the warning of Dr. Henry Smith Pritchett, president of the Carnegie endowment for the advancement of teaching that football stadia may be taxed.

Maj. Griffith was of the opinion that this view was "perhaps in the nature of a wish on the part of Dr. Pritchett." He pointed out that the treasury department ruled that college athletes were part of the work of an education institution and consequently entitled to tax exemption.

The commissioner also declared that only 25 of 4,000 institutions of higher learning have sufficient return from athletics to finance the cost of physical education and athletic departments.

WALKER KAYOES ANOTHER HEAVY

Jack Gagnon Knocked Out in First by Ex-Champion

BUFFALO, N. Y. (INS) — Mickey Walker, former middleweight champion who recently held Jack Sharkey to a draw, today added a new heavyweight victim to his record. He knocked out Jack Gagnon, one a mighty man from Boston, in the first round here last night.

Only two blows were struck. Walker hit his opponent with a right that dropped him and after he got up Mickey sent over a left hook that crushed Gagnon for keeps. It was claimed the Boston

heavyweight was out for two minutes.

Walker weighed 167 and Gagnon 209 pounds.

About 8,000 fans saw the bout.

CAMPAIGN ENDS 10 P.M. SATURDAY NIGHT

--DETAILS OF FINAL COUNT--

In order to maintain the utmost secrecy as to the number of subscriptions turned in by each candidate this, last week of The Midwest Free Press Big Automobile and Cash Campaign, the race will be brought to a close under a Sealed Ballot Box

No subscriptions whatever will be accepted through the campaign department this week, but instead, candidates themselves will deposit their final collections in the SEALED BALLOT BOX located at the American Savings Bank, corner Second and Sycamore streets, this city. And by so doing, no one, not even the campaign manager, or the publishers, can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest degree.

Locked and sealed the Ballot Box has been placed in the lobby of the American Savings Bank, where it will remain until the closing hour of the campaign, 10 o'clock Saturday night, August 22nd. When the final hour arrives the campaign will be declared closed. The judges will break the seals, unlock the box and immediately thereafter, or as soon as votes can be issued on subscriptions contained therein, the last count will begin. The winners will be determined by adding the vote totals, earned up to the close of the third period to those contained in the ballot box. There will be no waiting; no complicated count, but simply a matter of adding the vote totals and announcing the winners.

It is calculated that it will take some time, however, to canvass the findings in the box and to determine the winners. The official results will be published Monday in the Midwest Free Press.

Page
Carefully**

Heretofore out-of-town candidates have had the privilege of mailing their letters containing subscriptions from their home town at the closing of various "periods." This will not be permitted the last night of the campaign. ALL VOTES and SUBSCRIPTIONS MUST BE IN THE SEALED BOX WHEN THE RACE IS CLOSED AT 10 O'CLOCK.

OUT-OF-TOWN Candidates --Attention--

Out-of-town candidates, if possible to do so, arrange to deposit envelopes in person at the bank, but where this can not be done, letters containing final remittances should be addressed to CAMPAIGN DEPARTMENT, THE MIDWEST FREE PRESS, MUSCATINE, IOWA, and plainly marked FOR THE SEALED BALLOT BOX--NOT TO BE OPENED. Particular care should be taken to post such letters in good time to reach this office before the final hour, and it is advisable that they should be under a special delivery stamp.

IMPORTANT NOTICE

All subscriptions deposited in the sealed box must be accompanied by cash, money order or certified check for the full amount to cover. Personal checks up to \$39 are acceptable, provided no two checks are signed by the same party. This is made in all fairness to all candidates and will be strictly adhered to.

Last Period

Embracing the last week, terminating August 22nd, the following number of votes and points will be issued on subscriptions:

VOTE SCHEDULE	POINTS SCHEDULE
1/4 year 500	On \$300 Special Prize
1/2 year 1,000	1/4 year 3.4
1 year 4,000	1/2 year 1 1/2
2 years 30,000	1 year 3
3 years 40,000	2 years 6
4 years 95,000	3 years 9
5 years 160,000	4 years 12
	5 years 15
	6 years 18

A special ballot good for 100,000 votes will be issued on every "club" of \$20 turned in. This is in addition to regular number of votes allowed on every subscription secured up until 10 o'clock Saturday night, August 22nd, in the last hour of the campaign.

All Candidates

Must Certify and Attest to the
Correctness of Their
Vote Total by

**THURSDAY
NIGHT AT 8:00 O'CLOCK
BALLOT BOX**

Is Now Located at the American
Savings Bank, Corner Second
and Sycamore Streets

Judges

A number of local men will be asked to act as judges, to canvass the findings of the Ballot Box and to award the prizes. The members of this committee will be gentlemen who are well known to everyone in Muscatine and the surrounding territory, and the final results given out by them will be beyond dispute.
